Decentraland is another Metaverse candidate that grapples with this very issue. Dave Carr of the Decentraland Foundation tells me that the founders decided that “rather than have these environments be controlled by central bodies, they should have a decentralised structure and be open to everyone to own and govern.” From economic matters, to content moderation and even the maintenance of its servers, Decentraland’s user base dictates its entire policy course through regular votes.

Roblox also says that players who are 12 or younger have posts and chats filtered not just for inappropriate content but also to prevent personal information from being shared. That way, a child theoretically can't share a home address with a Roblox friend using Roblox's chat, for example. Players can also block and report users.
